Oral History Interviewing – DC Oral History Collaborative Grant
Sample Timeline

Past grantees have indicated that it takes **between 20-50 hours** of their time for each oral history interview they complete. As a result, we highly recommend that you think carefully about your availability/schedule. We provide extensive assistance throughout the project, but ultimately it is up to the grantee to do the project. Below is a sample, basic timeline that may be helpful.

- May - Complete required 3-session training
- July - Recruit narrators
- September - Start conducting interviews; complete interim report
- October - Start transcripts and indexes
- November - Start metadata ***all interviews should be completed by mid-November to close out on time***
- January - Submit final deliverables
- March - Complete final report
